

City Skyline Collage

YOU'LL NEED: CONSTRUCTION PAPER OR CARDSTOCK, SCISSORS, GLUE STICK, CRAYONS OR MARKERS

COLLAGE IS A TYPE OF ART THAT USES SHAPES TO MAKE UP A NEW IMAGE. THE DESIGNS AND SHAPES CAN BE ANYTHING YOU WANT- HERE, WE'RE USING BLACK BUILDING SHAPES TO CONTRAST WITH BRIGHT COLORS ON THE BACKGROUND AND WINDOWS!

- Start by choosing your background. You could pick a plain color of paper, or **PAINT** a background sky.

- **CUT** building shapes out of dark paper. You get to pick the shape- do you want tall, skinny buildings? Buildings with lots of floors? Will they be **CURVY** or **ANGULAR (pointy)**?

- Glue your buildings to the bottom of the paper. It's okay if they overlap, just choose the order you like best.

- Search your house for scrap paper, and cut it into interesting shapes. Anything can go into a collage!

- Use your paper pieces to decorate the buildings in your city. You can add windows, doors, arches, plants, or people to your scene.
