

# Valentine Hug Cards!

YOU'LL NEED: CONSTRUCTION PAPER, SCISSORS, TAPE, MARKERS, PAINT, OR CRAYONS

- Cut out the card template. **TRACE** onto a piece of construction paper, then cut out your card. Don't forget the **HEART!**
- Decorate your hugging critter however you like- the long strip will wrap around the front of the body, so make sure you decorate the **BACK** side of the arm.
- To make the heart, **FOLD** in half on the dotted line, and **CUT** along the darker line, like making a smiley face on the bottom half of the heart.

- **WRAP** the arm around your creature, and fold the end along the dotted line. **TAPE** the folded part on the back of the valentine. Carefully fold the flap on the heart up, and slide it onto your creature's arms. Now they're hugging a valentine for you!
