

# New Year Wish Wands!

YOU'LL NEED: CONSTRUCTION PAPER, PLAIN PAPER, MARKERS, CRAYONS, OR PAINT, TAPE OR GLUE, CRAFT OR CHOP STICKS

## 1. DECORATE STARS

- **DRAW** stars on your thicker paper, and decorate however you'd like. You can choose any size, colors, and decoration- add glitter if you want a little sparkle!
- **CUT** out the stars and glue or tape your stars onto handles- you can use craft sticks, dowels, or chop sticks, depending on the size of your stars.

## 2. MAKE A WISH

- **TAPE** two pieces of white printer paper together, and cut it down so its about as tall as your stars (if you made really big stars, you won't need to cut the paper).
- **WRITE** or draw your New Year wish or message across the white paper, making sure to leave an inch or two at both ends to attach the stars. You might need to adjust and trim the paper to fit.

## 3. FOLD & ASSEMBLE

- **ACCORDION** fold your new banner message, and use glue or tape to attach the banner to the stars.
- Pull the handles in and out to reveal your New Year's wish- like a shooting star. We hope your wish comes true!
